Profile

I'm Salah, a computer engineering student graduating in 2023. I'm passionate about coding and programming and am strongly interested in backend development and artificial intelligence. Throughout my studies, I've developed a strong foundation in these areas, and am always looking for opportunities to expand my knowledge and skills. I enjoy working on personal projects and taking the challenges to the next level in my free time. I'm excited to connect with like-minded individuals and explore opportunities in the tech industry As I always say our life begins when we leave our comfort zone.

SKILLS AND STRENGTHS

- **Skill 1** – Java, (upper intermediate)
- **Skill 2** – Data structure, (upper intermediate)
- **Skill 3** – Python, (upper intermediate)
